RCI Point Exchange Program goes Platinum

RCI has recently announced the launch of its latest enhancement to its very successful existing point-based exchange program that will offer exclusivity and lifestyle benefits to subscribing members.

RCI Points Platinum is intended to add specially acquired inventory around the world at upscale properties in highly sought after vacation destinations such as New York City and London. The Platinum members will also be rewarded with lifestyle privileges to have access to popular Broadway style theatre experiences including select opportunities to attend pre-launch and producer shows. To get more of their vacation experience, RCI Point Platinum members will receive discounts up to 50% on thousands of golf courses, dozens of the most popular ski mountain in North America and on spa experiences. WEEKS vs POINTS

With 35 years of experience, more than 4000 affiliated resorts worldwide and nearly 4 million members, RCI continues to be the global leader in vacation exchange. From traditional week trading it has succeeded to enhance members' vacation ownership with greater flexibility and added benefits by introducing its points membership in 2000, thus becoming the world's largest point-based vacation exchange network.

RCI Points membership allows members to use their points for short and nightly stays at numerous participating affiliated point resorts and using points for discounts on a wide range of travel products such as hotel stays, cruise vacations, car rentals, airline tickets, various entertainment events and amusement park passes.

The biggest advantage to an RCI Points membership is that to book accommodations it only requires... *Points!*

We have tabled for you both systems to help you differentiate the advantages that would better suit your travel needs.

Although not all of the RCI affiliated resorts are joining the RCI Points system, there is an increasing number of upscale resorts that are converting to Points mainly because it allows them to better maximize occupancy with the use of daily check-in/out times.
